Congrats!

Our character rewards the user with a badge combining lifecycle management with social engagement

Happy birthday!

Our character provides personalized experience on any notable circumstance

LETS TALK ABOUT GAMIFICATION

Lifecycle Support
&
Social Engagement

Elements of an Interior Slide

The screenshot shows a Vodafone customer account page. At the top, there's a navigation bar with 'Επιλογές', 'Επισημειώσεις - ιστορικός', 'Vodafone Ελλάδα', and user information. Below this is a red header with 'Κινητά & προγράμματα', 'Mobile Internet', 'eShop', and 'Εξυπηρέτηση'. The main content area is divided into several sections:

- My account:** A sidebar menu with options like 'Οι συνδέσεις μου', 'Αυθεντ. λογαριασμού', etc.
- Καλώς ήρθες στη Vodafone και στο my account!:** A welcome message with a red banner that says 'Χρειάζεσαι βοήθεια: Κάνε τον Φοοπρέτ να δες τις δυνατότητες να βρούμε λύσεις γι' αυτό!'.
- Ελέγξα τη χρήση μου:** A section for checking usage, with a green circle '2' highlighting a 'Νέο' (New) badge.
- Τα βραβία μου:** A section for earned rewards, with a green circle '1' highlighting the 'Newbie' badge. Below this are five badges: 'Newbie', 'myAccount', 'Πρώτες Βοήθειες', 'Facebook', and 'Paperless'.
- Συνόλασε επιδοτήσεις:** A section for rewards, with a green circle '2' highlighting a 'Νέο' (New) badge.

Engage customers by giving them tangible and virtual gifts. Virtual gifts can be exchanged with tangible

- 1 Badges rewarded to the specific customer (i.e. newbie, Facebook like)

- 2 Missions module that describes what missions need to be fulfilled in order to REWARD specific actions with actual results (i.e. limit agents on call time)

GAMIFICATION VIA ONLINE

Lifecycle Support
&
Social Engagement

Consumers / Business Employees

Badges make users care and feel proud

Benefits:

- ✓ Educate visitors to use online services instead of calling customer care
- ✓ Incentivise users to win more badges in order to get rewarded
- ✓ Encourage users to engage in desired behaviors
- ✓ Share experiences on social media platforms such as facebook

Consumers / Business Employees

Levels keep users coming back as they are indicators of status

Benefits:

- ✓ Users keep coming back for more scalable rewards
- ✓ Encourage desirable website usage behavior
- ✓ Incentivise competition between organizations
- ✓ Stimulate social responsibility

Assign rewards to actions and engage customers

SEGMENT - MEASURE

Lifecycle Support
&
Social Engagement

Segmenting our customers through question-to-answer technique

“Smart” questions (easy to answer) will be displayed during the entire navigational experience

Hyper.Trak™ Outlook

Capabilities of Hyper.Trak™

CAPABILITIES

Hyper.Trak™ provides the most complete, integrated content management platform allowing to handle the whole content lifecycle from content ingestion to its delivery and syndication.

It spots a browser-based user interface that can be accessed through a rigorous group/user management subsystem, where each party based on their role and privileges can see and interact with the content and system in a specified way that does not necessarily conflict or coincide with other users' view of the system.

Content Management

Content Moderation & Publishing

Meta-Data Management

Template Management (Pages, Portlets)

Version Control Management

SSO & Identity Management

Personalization

Benefits

-  **User Friendly / Optimal User Experience**
-  **Support of Considerable Number of Pages**
-  **SEO & SEM Readiness**
-  **Google Search Appliance**
-  **Scalability & Expandability**
-  **Social Media Technologies Readiness**
-  **Quick integration with other back office Systems**

Content Management at a Glance

FEATURES AT A GLANCE

- 1 Content Creation based on custom Templates
Content Management (Editing/Deleting/Uploading)
Content Moderation & Publishing
Preview before Publishing
Template Management
Menu Management (Mega Drop-Down)
Addition of Modules / Portlets (Shared & Unique) on Pages
- 2 Version Control Management
- 3 Meta-Data Management (Dynamic & Manual meta-tagging)
SEO Compliant – Friendly URLs
Support of Unique URLs
- 4 Scheduled Publishing
- 5 Multilingual Support

Content Management Features

1 "Out of the box" Content Creation

Easy-to-use authoring environment, designed to work like Microsoft Word. It provides a non-technical way of creating new pages or updating content, without having to know HTML.

3 Content Versioning

Support of **page versioning**. The publisher can configure the number of kept versions to balance between business needs and storage requirements.

5 Publishing Process & Scheduling

A workflow is used to run the approval process. The approval process is automated and takes the advantage of the built-in workflow features. The CMS supports of content scheduling. Content can be published or un-published immediately or at a specific date/time.

2 Template Content Creation

Easy way to create pages by using **custom templates, designed for each client separately**. The pages may contain portlets of all media types.

4 Meta Data Management

Hyper.Trak™ delivers **Web optimized** content for search engines. Through product pages, you can keep **meta tags, descriptions** and **image alt tags** up to date and optimized. This not only helps with search engine placement, but also helps to comply with accessibility laws.

6 Multilingual Support

Support of multiple languages by creating dynamic pages.

Personalization at a Glance

FEATURES AT A GLANCE

Personalization Rules (based on Web Site Behavior & Segment)
Offer Management (X-Sell & Upsell)

Display of Personalized Portlets and Modules
Personalized Content (based on Customer Type)

Voucher Management (Discounts & Gifts)

Advertisement & Promotions
SMS & Email Campaigns

Personalization Features

Personalized Offers

Creating **personalized offers** and communicate to specific customers via newsletter or campaigns in a “ready for basket” format as the customer experience is our top priority. Support of personalized x-sell & up-sell offers according to “buying” behavior.

Modules & Content

Lifecycle management dividing the users according to their maturity and providing **personalized content**. The system recognises the type of customer accessing the Vodafone web site, and applies the personalisation rules at a page and a portlet level.

Vouchers

Creation of **personalized** and **anonymous vouchers** with dynamic calculations of discounts according to the device price.

Campaigns & Promotions

Email Campaigns and promotions based on customer’s profile, purchase history and “web site” behaviours.

Authentication Features

FEATURES AT A GLANCE

- Support of Multiple Access Levels and Roles
- Rule Based Profiles & Access Rights
- Single Sign On (SSO) Authentication and Authorization
- LDAP Authentication Schema for Identity Management
- Password Policy & Change Password Mechanism
- System Logging and Access Control
- Ready for Integration with existing User Management Infrastructure

User Management

USER MANAGEMENT

Hyper.Trak™ has a user management module to define the users and the roles.

Having the appropriate rights, the relevant role will be able to type in his/her credentials (username & password) and log-in into the administration console. The tool supports the following roles:

ADMINISTRATORS

are responsible for

Creating Users, Assigning Roles and having full access to all content available.

AUTHORS

are responsible for

Modifying the content of the pages. Authors may have limited access to sections and can only modify the content of the sections they have access.

PUBLISHERS

are responsible for

Approving or declining requested changes or content and control what is visible on a site.

Google Search Appliance (GSA)

GSA

The screenshot shows a search interface with a search bar containing 'iPhone' and a search button labeled 'Αναζήτηση'. Below the search bar, there are three main search results:

- iPhone 4 8GB**: Includes an image of the iPhone 4 and a snippet: "Βρες χρήσιμες πληροφορίες για το iPhone 4 8GB και απ...".
- iPhone 4S 32GB**: Includes an image of the iPhone 4S and a snippet: "Βρες χρήσιμες πληροφορίες για το iPhone 4S 32GB και ...".
- Υποστήριξη**: Includes an image of a speech bubble and a snippet: "Ανανέωση συμβολαίου - Ανανέωση εύκολα και γρήγορα τó συμβόλαιό σου στη vod...".

Below these results, there are two additional search results with snippets:

- iPhone από τη Vodafone**: Includes a snippet: "http://www.vodafone.gr/portal/iPhone".
- iPhone 4 8GB**: Includes a snippet: "Βρες χρήσιμες πληροφορίες για το iPhone 4 8GB και απόκτησέ το φθηνότερα με νέα σύνδεση ή ανανέωση συμβολαίου Vodafone. http://www.vodafone.gr/portal/Click@shop@details-42566.act...".

“Search as you type”

Hyper.Trak™ supports **GSA meta-tagging** and is ready for Integration with Google Search.

Key Benefits

- Increase Sales
- Increase Net Promoter Score (NPS)
- Reduce Call Center Costs

Google Analytics Reporting

STATISTICS
&
VISIBILITY

Hyper.Trak™ supports Google Analytics reporting as it automatically feeds with tracking cookies for real-time reporting & analytics.
